About This Content

NOTE: THE MAIN GAME X-PLANE 10 IS NOT AVAILABLE ANYMORE! PLEASE ONLY PURCHASE DLCS WHEN YOU ARE ALREADY OWNER OF X-PLANE 10!

Never before have there been so many objects on an X-Plane airport to discover as with Britain's major airport, London Heathrow. The scenery includes all five terminals and animated apron traffic. The award-winning team sim-wings convinces with a model of perfection for such a Mega Hub!

Find out what commercial aviation is all about by joining the traffic of the world´s third busiest airport. The scenery covers around 42 square kilometers in total with fully detailed buildings at the airport, including the new T2 and T2B terminals. Fully customized high resolution aerial ground textures, detailed ground markings and the actual taxiway layout with new rapid runway exits and taxiway links make it a perfect rendition while use of LOD technique will give you the best possible performance.

Fun vr platformer. You feel compelled gather all the scrolls in the levels. Theres alot of variety in the quests and good times to be had. Just try the demo, I was sold. Super looking forward to the full release.. Really enjoy this game, short strategy game that doesn't take long.. Its just a flesh wound!. Hard, and just feels bad, and boring.

Go play the free version of Hydorah, or buy Super Hydorah on steam.

https://store.steampowered.com/app/628800/Super_Hydorah/. ARMA 3 IN WWII. I have no idea what this even is, its so crazy. This game is absolutely horrible waste of money. The theme of all games are boring the puzzles arent entertaining and it also doesnt save your progress when you exit the game. WASTE. BUGGED, Looks like if you complete the first time with maximum range without kill the Ace from Second Map, you can\u00b4t continue the DLC story although you finish the mission by second time killing the ace.
The Second Map consumes too much time. try and failing .
Simply I can't recommend this DLC.
The Squad 7 and Summer DLCs are entertaining\/fun.
I don't know if I should try for the third time (because is painful paying for content which you can't access)
The DLC Story is fine but....
idk, if i could fix this maybe I change my recommendation, but at this moment it is NO-NO

Typos and poor English aside, the point of the game is really unclear, even with a tutorial.

I've also been plagued by tons of bugs, from the main menu not being able to load to the character sprite not showing up in the game.. I originally thought this would be a boring game to play, but after this past couple hours of playing I can honestly say that it wasn't entirely what I was expecting. Compared to what that was, ended up being less porn, and a heaping helping of comedy that boarded on the line between quirky and insane.

In simpler words, I ♥♥♥♥ing loved it.

All the endings will be mine!. The real spiritual successor to Monkey Island. Probably a terrible game that I can't see behind all this nostalgia.. This is a great tower defense game. It has a good depth to it, and the towers have extensive upgrades and choices. The xmaps are well thought out and provide enough depth and versatility to keep the game interesting.

As to the technical side: game plays really well and not taxing on the system. I have run into any bugs or issues playing it on a Dell PC. The game can be played in full screen or windowed and it has a variety of resolution options, including 1920x1080. The characters animate well and the game is detailed and colorful.

If you're a fan of tower defense games, you'll really enjoy this one. If you haven't played the genre before, you can go wrong by starting with this game.. What happens when you take Satan, an adorable cat, scary maze game and infomercials from the '80s? This game. And it's fun. Very fun. But also very anger inducing at the same time. So, be ready for that.. for early access? I am having FUN playing that game,I have to say, I have played a little amount of horror games, but that one? The best one I have played. I really recommend that game for every horror game lover, brony, pegasis and people that just want to play a good horror game.. For the VR people out there: You don't have to do anything special to get this to work. Simply press 'Play'. GLORIOUS!

If you own a VR headset, and you want to experience how immersive VR can be, then you should pick this up.

The game features only geometric shapes and some choice sound/environmental effects which surprisingly leads to a spooky, engrossing descent into the abyss.

I doubt the game will have much replay value and, like most scary games once you know what is coming it's not scary, but I bought this on sale for around $3 and am totally satisifed.

Check out the video if you would like to see the first three levels:

https://youtu.be/3EJABcwuc5E. I played this game with my dad on Ipad when i was little, miss those times :(nostalgia. oh yesssssssssssssssssssssss!
good game
work windows 10 home 64bit. 20 minutes gameplay and its already clear that this game is a fat, steaming hot turd. AVOID
